Meals made easy

The latest

QUBIES (above) are the easiest way to freeze breast milk and pureed baby food. Unlike other covered ice cube trays on the market, the big surprise with QUBIES is the dividers are moulded on to the soft silicone lid, so the eight 30ml cubes are released as soon as you open it. RRP \$19.95. See www.qubies.com.au for stockists or to buy online.
