Product Tested By Sian Graham - Baby Max 7 Months
Sian Awarded Qubies 4/5

These arrived neatly packaged and looked colourful. Instructions were self explanatory - Bold - Clear - Concise. These are well made come in lovely modern colours and are tough and flexible. I think these Qubies are ideal for babies aged 6 months as very small portions. The lid did require some checking and having to pull the lip into place once you have filled the dish was a little awkward but not too bad. You would need about 2 or 3 Qubies to enable you to store and freeze a selection of food for bubs. I just used my Qubie for baby food, but you could freeze juices and puree fruits. These take up hardly any space in the freezer and easy to stack plus they are dishwasher proof. I have used these for baby food but need bigger portions so will certainly continue to use them to freeze egg whites and for herbs and spices. A modern, sleek & family friendly design. Clear and concise instructions and loved the family friendly recipe idea on the back. *Sian Graham - Baby Max 7 Months*

Product Tested By Katrina Giudice - Baby Gabriella 7 Months
Katrina Awarded Qubies 5/5

First impression - Loved the concept of the dividers in the lid instead of the actual container. Relatively good size. Product is pretty self explanatory. Whether it is the right product for you really depends on whether you freeze food or not. This is superb quality - Strong plastic and certainly looks like it will last for a long while. Portion sizes are great, but would like a larger one for when bubby is older. The lid is so easy to put on and remove so ideal for storage and freezing. This product was the perfect size portions for Gabriella who has been on solids for 1-2 months. Will increase to 2 portions etc as bubby grows older. The Qubie is good for approx 4-5 days supply

only. If you like to freeze more at one time, you would need at least 2-3 Qubies. I used these for baby food and jelly. Great value for money. The lid is great as the portion control. You can pour the food in straight from the source into the container. Really loved these and will definitely invest in more. I love the fact that I don't have to individually spoon food into ice cube trays. The portion sizes are great and easy to remove from the container (I could even get my 10 year old to do it with ease). For mums this is a great idea, easy and convenient, especially when you have a hectic schedule. *Katrina Giudice - Baby Gabriella 7 Months*

Product Tested By Sarah Rayner - Baby Maiya 8 Months

Sarah Awarded Qubies 4.75/5

I think this is a fantastic idea. Great to use for food and breast milk. I really like the idea of being able to pop out one or two at a time with the easy to use lid. The packaging is very helpful as it tells you the size of the cube and has a nice recipe idea and instructions on how to use. The plastic is very high quality and loved the fact that this is dishwasher safe. I did find occasionally the lid a little stiff to start with. I really liked the size but for the future would be interested in some bigger size ones if available. These are really good for starting out but as my baby gets bigger so does her food portions and I love cooking and freezing her food. Personally I would need two Qubies as I usually keep a weeks food in the freezer and I do fruit for lunch times and vegetables for tea. I have only used these for Maiya's food at present, but in the future will use for excess tomatoe paste etc. My nan would love these for things like that and stocks. I feel this is good value for money as have been using my Qubie for several weeks now and no complaints. I was totally satisfied with this product and am more than happy to recommend it to others. *Sarah Rayner - Baby Maiya 8 Months*
