Qubies Food Freezer tray

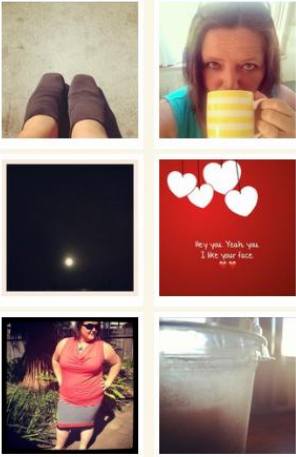

1 x Qubies Food Freezing Tray – When I was asked to review Qubies, I was going to say no because I thought it was mainly being pushed as a way to freeze breast milk and we all know I'm WAY past the stage of needing to do that.

But then after checking the Qubies website, I realised that it could in fact be used to freeze almost anything, as long as that anything was freezable!

The ideas are endless – baby food, breast milk, stocks, tomato puree, herbs, ice, sauces, lemon juice, left over wine (WHAT THE?!)

I love kiwi fruit, but I am the only one that eats kiwi fruit in this house. So it makes me sad when they are on sale and I can't buy heaps because they will go off before I finish them in my smoothies.

So now I can still buy them fresh but also purchase some extra and with a little prep, puree them, stick them in my Qubies and pop a cube out to add to my fruit smoothie in the mornings.

Thanks to Qubies, 1 TGDM reader will win their own Qubies Food Freezing Tray
