## Qubies - A New Aussie Product That Saves Mum's Time, Money and Stress

I have been trying an absolutely wonderful new product called Qubies. Qubies are specifically designed to freeze and store breast milk and baby food into convenient 30ml cubes. But they are so much more!

The aim of Qubies is to save Mum's time, money and stress and ensure babies only get the best in terms of fresh 'additive & preservative free' foods.

Qubies was designed by Australian mum Alexandra Wardle. As a new mum she was frustrated trying to get baby food out of those plastic ice cube trays. So she came up with a better way.

These are so easy to use! You pour your baby food into the base of the Qubies and fill it to the line. Pop the lid on and freeze. When you need to use it, using both hands you give the container

These are so easy to use! You pour your baby food into the base of the Qubies and fill it to the line. Pop the lid on and freeze. When you need to use it, using both hands you give the container a small twist and it releases the cubes - first time every time. Peel the lid back and the 30ml cubes come out so easily. Please see the video at the bottom of the page to see how easy and simple it is.

What a great idea! Of course you can freeze whatever you want to.

- Baby food
- Breast milk
- Stock
- Pesto
- Tomato puree
- Herbs
- Water
- Sauces
- Lemon/Lime juice
- Plus lots more.

Qubies has been proud to be winner and runner up in a number of awards, including:

- 2010 Winner for the Telstra Business Women's Awards 2010 for Nokia Product Innovation
- 2012 Runner Up for the My Child Excellence Award (feeding)
- 2010 Finalist in the AusMumpreneur Awards - category of Product Innovation
- 2010 GCGOV Star of Excellence (Gold Coast Grapevine House of Vitner)

The RRP is \$19.95 and they are available in blue, green and introducing a gorgeous new PINK colour.

All stockists are listed on the Qubies website: [www.qubies.com.au](http://www.qubies.com.au)
